

Essential Searching Skills

Mac-CARE and the Health Sciences Library
Faculty Development Education Series

Monday,
March 28th, 2022

12 PM – 1 PM | Zoom

About this workshop

Set yourself up for success by learning essential searching skills that can help you save time and get you started with your research. Attendees will learn database tips and tricks and participants will become more comfortable using databases such as Medline.

Learning Objectives

By the end of the session, you will be able to:

- Take your idea and put it into a searchable question
- Find sources more efficiently
- Select the best resource to find information on your topic
- Design and execute an effective search strategy
